TIPS

Care/Maintenance

To extend the life of your chairs we recommend the following:

- Adjust the tensioner on your chair accordingly once you first use your chair.
- Check all screws every six months to ensure all parts remain in correct working order.
- When cleaning your chair, wipe down with a damp clean cloth followed with a dry clean cloth to avoid any excess moisture left on the chair. DO NOT USE ANY HARSH DETERGENTS.
- Direct sunlight can affect the material of your chair.
- Discolouring can happen on white pleather over time.

Warranty

- All Items carry a warranty as specified.
- The warranty covers workmanship and components.
- The warranty excludes abuse and normal wear and tear. Chairs used 5 days a week, 9 hours a day is considered normal use.

Please Note

- There could be a slight colour variation between catalogue and actual product.
